January 14, 2004

Governor Joseph Kernan
State House
200 West Washington Street
Indianapolis, IN 46204

Dear Governor Kernan:

After consultation with those that are directly involved and in regard to the release of the Final Environmental Impact Statement for the I-69 Evansville to Indianapolis project, I would like to request that the review and comment period be extended to March 31, 2004. It is my understanding that this document was released just before Christmas is considerably larger than the Draft Environmental Impact Statement.

The permanent consequences on a project of this magnitude makes it even more imperative that there is adequate time for public review. There are citizen groups with technical consultants and there needs to be plenty of time to review this lengthy document and the supporting data. It is in everyone's best interest that due diligence is given.

I have not enclosed any of the technical data . I am sure you understand the situation completely.

Sincerely,

Lawrence M. Borst, D.V.M.
State Senator
